11/28/88

Dear Jim,

I don't remember the request of 2/4/81 so I'll file these few pages sent by Nisbet under date of 11/17/88 with the DJ records. That request was quite long ago. I don't recall the exact date.

I may be wrong but the Church commitee stuff referred to seems to be both the nutty report and some things tha followed, like the Hosty business.

Reference to Hart may or may not be to the silliness of the Schweiker sub-committee, of which Hart was the only other member.

I don't recall anything from that report relating to transgressions by any employee of the Department, all parts.

I'm inclined to believe that there is nothing substantial to whatever they refer to.

However, I call your attention to the statement that DJ is till empowered to look into all JFK assassination matters.

Best,

Harold
